Section 7006.8. The disciplinary hearing

(a) An incarcerated individual charged with a violation in accordance with section 7006.4 of this Part shall receive a hearing within 15 business days of receipt of the misbehavior report. In the event an incarcerated individual is placed in segregated confinement pending a disciplinary hearing pursuant to subdivision (a) of section 7006.7 of this Part, a hearing shall occur as soon as reasonably practicable and at most within five (5) days of such placement, unless the charged individual seeks postponement of the hearing. The incarcerated individual shall be given at least 24 hours prior written notice of the hearing. A hearing shall be completed within

five business days of its convening unless otherwise authorized by the chief administrative officer. The time frames required by this subdivision may be waived by the incarcerated individual, however, such waiver shall not be effective unless made in writing.

(b) The chief administrative officer shall appoint one or more impartial persons to serve as hearing officer or as members of a hearing panel during the disciplinary hearing. Prior to presiding over any hearings, a hearing officer shall undergo a minimum of thirty-seven hours of training, with one additional day of training annually thereafter, on relevant topics, including but not limited to, the physical and psychological effects of segregated confinement, procedural and due process rights of the accused, and restorative justice remedies.

(c) The incarcerated individual shall be allowed to be present at the hearing unless the individual has waived the right to be present or the hearing officer determines that the individual's presence will jeopardize the safety, security, or good order of the facility. A waiver of the right to be present shall be made in writing and signed by the incarcerated individual. If the incarcerated individual refuses to sign such waiver, it shall be so noted in the record. A hearing officer's determination that an individual's presence will jeopardize the safety, security, or good order of the facility shall be documented in the hearing record. For any hearing in which segregated confinement is an authorized sanction upon a finding of guilt, the incarcerated individual shall be permitted to be represented by any attorney or law student, or by any paralegal or incarcerated individual unless the chief administrative officer reasonably disapproves of such paralegal or incarcerated person based upon objective written facility criteria.

(d) The inmate shall be given the opportunity to speak on his own behalf at the hearing, and shall be permitted to call witnesses and present evidence in his defense if relevant and not redundant, and when doing so would not jeopardize the safety, security, or good order of the facility. A hearing officer's determination that the presence of a particular witness or the introduction of particular evidence is irrelevant, redundant, or will jeopardize the safety, security, or good order of the facility shall be documented in the hearing record.

(e) If the hearing officer calls witnesses, the inmate may submit questions directed toward such witnesses to the hearing officer. The hearing officer shall pose such questions to the witness if relevant and not redundant, and when doing so would not jeopardize the safety, security, or good order of the facility. The hearing officer may restate such question if it is unclear or in improper form. A hearing officer's determination that a particular question is irrelevant, redundant, or will jeopardize the safety, security, or good order of the facility shall be documented in the hearing record.

(f) The inmate may be excluded from the hearing during the interview of witnesses in accordance with subdivision (e) of this section. The contents of such interview shall be provided to the inmate, except for such information that, if provided, would jeopardize the safety, security, or good order of the facility.

A copy of the disposition shall be provided to the inmate.

(i) Nothing contained in this Part shall preclude the use of plea bargaining.

(iii) an incarcerated individual may be sanctioned to segregated confinement beyond the limitations of subparagraph (ii) of this paragraph or, in a facility with a maximum facility capacity exceeding five hundred (500), in a residential rehabilitation unit only if the disposition contains a finding that the individual committed a violent felony act, and if the chief administrative officer determines in writing, based on specific objective criteria, the act was so heinous or destructive that placement of the individual in general population housing creates a significant risk of imminent serious physical injury to staff or other incarcerated persons, and creates an unreasonable risk to the security of the facility; and

(iv) for purposes of subparagraph (iii) of this paragraph, the violent felony act of attempting to cause a serious disturbance or to escape shall only be determined to have occurred if there is a clear finding that the incarcerated individual had the intent to cause a serious disturbance or the intent to escape and had completed significant acts in the advancement of the attempt to create a serious disturbance or escape. Evidence of withdrawal or abandonment of a plan to cause a serious disturbance or to escape shall negate a finding of intent;

(6) loss of a specified period of good behavior allowance, subject to restoration pursuant to applicable laws and regulations; and/or

(7) loss of up to one hour of weekly visitation for a period consistent with the facility rules of inmate conduct for the particular offense.

(b) The hearing officer may hold the commencement of a sanction in abeyance for a period up to 30 days in order to assess the behavioral adjustment of the inmate. At the conclusion of such period, the hearing officer shall determine whether the sanction shall commence in whole or in part or shall be suspended in whole or in part.

(c) If an inmate is found guilty of a charge of misbehavior, a disciplinary surcharge not to exceed \$25 may be imposed upon the inmate in addition to the sanctions authorized pursuant to subdivision (a) of this section. All moneys collected shall be deposited in the county general fund and not specifically allocated to the facility.

- (a) The three factors necessary to create a significant risk of contracting or transmitting HIV infection are:
- (1) the presence of a significant risk body substance;
 - (2) a circumstance which constitutes significant risk for transmitting or contracting HIV infection; and
 - (3) the presence of an infectious source and a noninfected person.
- (b) *Significant risk body substances* are blood, semen, vaginal secretions, breast milk, tissue and the following body fluids: cerebrospinal, amniotic, peritoneal, synovial, pericardial, and pleural.
- (c) Circumstances which constitute "significant risk of transmitting or contracting HIV infection" are:
- (1) sexual intercourse (vaginal, anal, oral) which exposes a noninfected individual to blood, semen or vaginal secretions of an infected individual;
 - (2) sharing of needles and other paraphernalia used for preparing and injecting drugs between infected and noninfected individuals;

(3) the gestation, birthing or breast feeding of an infant when the mother is infected with HIV;

(4) transfusion or transplantation of blood, organs, or other tissues from an infected individual to an uninfected individual, providing such blood, organs or other tissues have not tested negatively for antibody or antigen and have not been rendered noninfective by heat or chemical treatment; and

(5) other circumstances not identified in paragraphs (1)-(4) of this subdivision during which a significant risk body substance (other than breast milk) of an infected individual contacts mucous membranes (e.g., eyes, nose, mouth), nonintact skin (e.g., open wound, skin with a dermatitis condition, abraded areas) or the vascular system of a noninfected person. Such circumstances include, but are not limited to needlestick or puncture wound injuries and direct saturation or permeation of these body surfaces by the infectious body substance.

(d) Circumstances that involve “significant risk” shall not include:

(1) exposure to urine, feces, sputum, nasal secretions, saliva, sweat, tears or vomitus that does not contain blood that is visible to the naked eye;

(2) human bites where there is no direct blood-to-blood, or blood-to-mucous membrane contact;

(3) exposure of intact skin-to-blood or any other body substance; or

(4) occupational settings where individuals use scientifically accepted barrier techniques and preventive practices in circumstances which would otherwise pose a significant risk.

Section 7064.6. HIV-related testing

(a) Except as noted in paragraph (3) of this subdivision, no physician or other person authorized pursuant to law may order an HIV-related test without obtaining written informed consent.

(1) Informed consent shall consist of providing to the person to be tested or, if such person lacks capacity to consent, to the person lawfully authorized to consent to health care for such person. In situations in which a person other than the test subject consents to the test, pretest counseling shall also be provided to the subject to the extent that the person ordering the test deems that the test subject will benefit from counseling. Pretest counseling shall include:

(i) explanations regarding the nature of HIV infection and HIV-related illness, an explanation of the HIV-related test including a description of the procedure to be followed, meaning of the test results, and the benefits of taking the test, including early diagnosis and medical intervention;

(ii) information regarding discrimination problems which might occur as a result of unauthorized disclosure of HIV-related information and legal protections prohibiting such disclosures;

(iii) information on preventing exposure or transmission of HIV infection, including behavior which poses a risk of HIV transmission; and

(iv) an explanation that the test is voluntary, that consent may be withdrawn at any time, and that anonymous testing is available, including the location and telephone numbers of anonymous test sites, and that anonymous testing is not available to persons proposed for insurance coverage.

(2) Written informed consent must be executed on a form developed by the Department of Health or on another form approved specifically by the Department of Health.

(3) Informed consent is not required in the following situations:

(i) for court-ordered testing pursuant to Civil Practice Law and Rules, section 3121;

(ii) if otherwise authorized or required by State or Federal law;

(iii) for testing related to procuring, processing, distributing or use of a human body or human body part, including organs, tissues, eyes, bones, arteries, blood, semen or other body fluids for use in medical research or therapy, or for transplantation to persons, provided that if the test results are communicated to the tested persons, post-test counseling is required;

(iv) for research if the testing is performed in a manner by which the identity of the test subject is not known and may not be retrieved by the researcher; or

(v) for testing of a deceased to determine cause of death or for epidemiological purposes.

(b) In addition to an explanation of the test result, the person who orders the test shall be responsible for ensuring that post-test counseling or referrals as appropriate with respect to a positive or negative test result shall be provided to the person who consented to the test. In situations in which a person other than the test subject consents for the test, post-test counseling and referrals should also be provided to the test subject, to the extent the person ordering the test deems that the test subject will benefit from counseling. Such post-test counseling and referrals must include specific referral information and must address:

(1) coping emotionally with the test results;

(2) discrimination issues;

(3) information on the ability to release or revoke the release of confidential HIV-related information;

(4) information on preventing exposure to or transmission of HIV infection and the availability of medical treatment; and

(5) the need to notify contacts to prevent transmission, including information on State or county assistance in voluntary contact notification, if appropriate.

(c) A physician or other person authorized pursuant to law to order an HIV-related test shall certify on a laboratory requisition form that informed consent has been obtained. Authorized employees or agents of the New York State Department of Health or of the New York City Department of Health may order HIV-related tests and certify, as appropriate, with respect to obtaining informed consent in approved anonymous testing sites.

Disclosure is permitted for HIV-related information pursuant to a specific release form which has been developed or approved by the New York State Department of Health. The release must be signed by the protected individual, or if the protected individual lacks capacity to consent, by a person authorized pursuant to law to consent to health care for the individual.

(b) All written disclosures of confidential HIV-related information shall be securely packaged and be accompanied by a statement prohibiting redisclosure. The statement shall include the following language or substantially similar language: "This information has been disclosed to you from confidential records which are protected by State law. State law prohibits you from making any further disclosure of this information without the specific written consent of the person to whom it pertains, or as otherwise permitted by law. Any unauthorized further disclosure in violation of State law may result in a fine or jail sentence or both. A general authorization for the release of medical or other information is not sufficient authorization for further disclosure. Disclosure of confidential HIV information that occurs as the result of a general authorization for the release of medical or other information will be a violation of the State law and may result in a fine or a jail sentence or both."

(c) If oral disclosures are necessary, they must be accompanied or followed as soon as possible, but no later than 10 days, by the statement required by subdivision (b) of this section.

(d) The statement required by subdivisions (b) and (c) of this section is not required for release to the protected person or to his or her legal representative, for releases made by a physician or public health officer to a contact, or for releases made by a physician to a person authorized pursuant to law to consent to the health care of the protected person when the person has been counseled and the disclosure is medically necessary pursuant to Public Health Law, section 2782(4)(e). For disclosures of confidential HIV-related information from the patient's medical record to persons who are permitted access to this information pursuant to section 7064.8(a)(3), (4), (6), (7), (9) and (10) and section 7064.8(e) and (f) of this Part, it shall be sufficient for the statement required by subdivisions (b) and (c) of this section to appear in the medical record itself.

Any such determination shall be made by the chief administrative officer in writing, and shall state the specific facts and reasons underlying the determination.

(b) Unless otherwise specified by the provisions of this Chapter, the provision of an essential service to an incarcerated individual shall not be denied, restricted or limited unless the chief administrative officer determines that providing such essential service would cause a threat to

Section 7076.3. Policy

Consistent with the requirements of this Part, each facility shall establish and implement policies and procedures with respect to the conditions, programming, duration, recordkeeping and reporting of segregated confinement.

History

Emergency rulemaking eff. March 31, 2022, expires June 26, 2022 (Register dated April 13, 2022); emergency rulemaking eff. June 23, 2022, expires Aug. 21, 2022 (Register dated July 13, 2022); new adopted filed July 26, 2022 eff. Aug. 10, 2022 (Register dated August 10, 2022).

Section 7076.4. Conditions and function

(b) No individual may be placed in segregated confinement based on the same act or incident that was previously used as the basis for such placement.

(c) No individual may be held in segregated confinement for protective custody. Any unit used for protective custody must, at a minimum, conform to the requirements governing residential rehabilitation units, as set forth in Part 7077 of this Title.

History

Emergency rulemaking eff. March 31, 2022, expires June 26, 2022 (Register dated April 13, 2022); emergency rulemaking eff. June 23, 2022, expires Aug. 21, 2022 (Register dated July 13, 2022); new adopted filed July 26, 2022 eff. Aug. 10, 2022 (Register dated August 10, 2022).

(b) Incarcerated individuals in segregated confinement shall be offered programming led by program or therapeutic staff five (5) days per week, except on recognized state legal holidays. All other out-of-cell time may include peer-led programs, time in a day room or out-of-cell recreation area with other people, congregate meals, volunteer programs, or other congregate activities.

(c) If established that an incarcerated individual committed a violent felony act while in segregated confinement and poses a significant and unreasonable risk to the safety and security of other incarcerated individuals or staff, the chief administrative officer may restrict such individual's participation in programming and out-of-cell activities as necessary for the safety of other incarcerated individuals and staff. If such restrictions are imposed, the facility must provide at least four (4) hours out-of-cell time daily, including at least two (2) hours of therapeutic programming and two (2) hours of exercise, and must make reasonable efforts to reinstate access to programming as soon as possible. In no case may such restrictions extend beyond fifteen (15) days unless the incarcerated individual commits a new violent felony act justifying restrictions on program access, or if the chief administrative officer reasonably determines that the incarcerated individual poses an extraordinary and unacceptable risk of imminent harm to the safety or security of other incarcerated individuals or staff. Any extension of program restrictions beyond fifteen (15) days must be meaningfully reviewed and approved at least every fifteen (15) days by the chief administrative officer. Each review must consider the impact of therapeutic programming provided during the fifteen (15) day period on the individual's risk of imminent harm and the chief administrative must articulate in writing, with a copy provided to the incarcerated individual, the specific reason why the individual currently poses an extraordinary and unacceptable risk of imminent harm to the safety or security of incarcerated individuals or staff. In no case may restrictions imposed by the chief administrative officer extend beyond ninety (90) days unless the individual commits a new violent felony act justifying restrictions on program access.

(b) No incarcerated individual may be placed in segregated confinement for longer than necessary and no more than fifteen (15) consecutive days, nor shall any individual be placed in segregated confinement for more than twenty (20) total days within any sixty (60) day period except as otherwise provided in subdivision (c) of this section. At these limits, the incarcerated individual must be released from segregated confinement or, in facilities with a maximum facility capacity exceeding five hundred (500), diverted to a separate residential rehabilitation unit. If placement of such individual in segregated confinement would exceed the twenty (20) day limit and the chief administrative officer determines that the individual committed a violent felony act, the chief administrative officer may, in a facility with a maximum facility capacity exceeding five hundred (500), place the individual in segregated confinement until admission to a residential rehabilitation unit can be effectuated. Such admission to a residential rehabilitation unit shall occur as expeditiously as possible and in no case take longer than forty-eight (48) hours from the time such individual is placed in segregated confinement.

(c) For offenses determined to constitute a violent felony act, if occurring more than one time within any sixty (60) day period, up to an additional fifteen (15) consecutive days in segregated confinement may occur for each such additional incident. If such subsequent incident takes place in a residential rehabilitation unit or general population, the incarcerated individual may be returned to segregated confinement for up to fifteen (15) consecutive days. If such subsequent incident takes place in segregated confinement and causes physical injury to another person, the incarcerated individual may receive up to an additional fifteen (15) consecutive days in segregated confinement, provided however that the individual must spend at least fifteen (15) days in a residential rehabilitation unit in between each placement of up to fifteen (15) consecutive days in segregated confinement.

(c) Each facility shall publish monthly reports on its website, with semi-annual and annual cumulative reports, of the total number of people who are in segregated confinement on the first day of each month. The reports shall provide a breakdown of the number of people in segregated confinement by:

Such plan shall identify specific goals and programs, treatment, and services to be

offered, with projected time frames for completion and discharge from the residential rehabilitation unit.

(b) Incarcerated individuals admitted to a residential rehabilitation unit shall be offered at least six (6) hours of daily out-of-cell congregate programming, services, treatment, recreation, activities and/or meals, with an additional minimum of one hour for exercise. Exercise in all residential rehabilitation units shall take place in a congregate setting, unless exceptional circumstances mean doing so would create a significant and unreasonable risk to the safety and security of other incarcerated individuals, staff, or the facility.

(c) Incarcerated individuals in residential rehabilitation units shall be offered programming led by program or therapeutic staff five (5) days per week, except on recognized state legal holidays. All other out-of-cell time may include peer-led programs, time in a dayroom or out-of-cell recreation area with other people, congregate meals, volunteer programs, or other congregate activities.

(d) An incarcerated individual in a residential rehabilitation unit shall have access to programs and work assignments comparable to core programs and types of work assignments in general population. Such incarcerated individuals shall also have access to additional out-of-cell, trauma-informed therapeutic programming aimed at promoting personal development, addressing underlying causes of problematic behavior resulting in placement in a residential rehabilitation unit, and helping prepare for discharge from the unit and to the community.

(e) If established that an incarcerated individual committed a violent felony act while in a residential rehabilitation unit and poses a significant and unreasonable risk to the safety and security of other incarcerated individuals or staff, the chief administrative officer may restrict such individual's participation in programming and out-of-cell activities as necessary for the safety of other incarcerated individuals and staff. If such restrictions are imposed, the facility must provide at least four (4) hours out-of-cell time daily, including at least two (2) hours of therapeutic programming and two (2) hours of exercise, and must make reasonable efforts to reinstate access to programming as soon as possible. In no case may such restrictions extend beyond fifteen (15) days unless the individual commits a new violent felony act justifying restrictions on program access, or if the chief administrative officer reasonably determines that the individual poses an extraordinary and unacceptable risk of imminent harm to the safety or security of incarcerated individuals or staff. In no case may restrictions imposed by the chief administrative officer extend beyond

ninety (90) days unless the individual commits a new violent felony act justifying restrictions on program access.

History

If the individual's rehabilitation plan is successfully completed before the sanction expires, the individual shall have a right to be discharged from the unit upon such completion.

(b) If an incarcerated individual has not been discharged from a residential rehabilitation unit within one year of initial admission to such a unit, the individual shall have a right to be discharged from the unit unless the individual committed a violent felony act within the prior one hundred eighty (180) days and the individual poses a significant and unreasonable risk to the safety or security of incarcerated persons or staff. In any such case the decision not to discharge such individual shall be immediately and automatically subjected to an independent review by the chief administrative officer. An incarcerated individual may remain in a residential rehabilitation unit beyond the time limits provided in this section if approved by the chief administrative officer. In extraordinary circumstances, a person who has not committed a violent felony act within the prior one hundred eighty (180) days may remain in a residential rehabilitation unit beyond the time limits provided in this section if the chief administrative officer determines that such individual poses an extraordinary and unacceptable risk of imminent harm to the safety or security of incarcerated persons or staff.

(c) There shall be a meaningful periodic review of the status of each incarcerated individual in a residential rehabilitation unit at least every sixty (60) days to assess the individual's progress and determine if the individual should be discharged from the unit. Following such periodic review, if the individual is not discharged from the unit, program and mental health staff shall specify in writing the reasons for the determination and the program, treatment, service, and/or corrective action required before discharge. The incarcerated individual shall be given access to

the programs, treatment and services specified, and shall have a right to be discharged from the residential rehabilitation unit upon the successful fulfillment of such requirements.

(d) When an incarcerated individual is discharged from a residential rehabilitation unit, any remaining time to serve on any underlying disciplinary sanction shall be dismissed. (c) Each facility shall publish monthly reports on its website, with semi-annual and annual cumulative reports, of the total number of people who are in residential rehabilitation units on the first day of each month. The reports shall provide a breakdown of the number of people in residential rehabilitation units by:
